

# BLUE MAX™ BMP HIGH SPEED AIRPORT RUNWAY SNOWPLOW

## Powerful Plows Built from Tough Components

Wausau Blue Max™ is specifically designed for high-speed plowing on airport runways. High-quality materials provide exceptional toughness for today's high-horsepower chassis. Available in polyethylene or steel moldboard.

**Polyethylene Moldboard.** Snow does not adhere to polyethylene. Provides superior casting characteristics in wet or icy snow.

**Deep Moldboard Curvature.** Concentrates snow into a high velocity stream for maximum casting distances. Eliminates overspray for optimum operator vision

**120" Wide Frame.** Provides maximum strength, and long lift, fully-welded, box-section, channel and solid-steel construction.

**4-1/2" Reversing Cylinders.** Heavy-duty cylinders are adjustable for quick, positive angling.

**(6) Isomer Cushions.** Protects plow, hitch and truck from damage when encountering obstacles.

**Adjustable Moldboard Pitch –65°, 75°, 85°.** Quick manual adjustment matches snow depth and density.

**Choice of Cutting Edges.** Can be equipped with carbide, rubber, and polyurethane cutting edges.

MODEL	LENGTH	CUTTING WIDTH	HEIGHT	RIBS	WEIGHT
BMP 1450	14'	12'0"	50"	10	3,530 lbs.
BMP 1750	17'	14'4"	50"	10	4,400 lbs.
