

TURBO BLAST 500

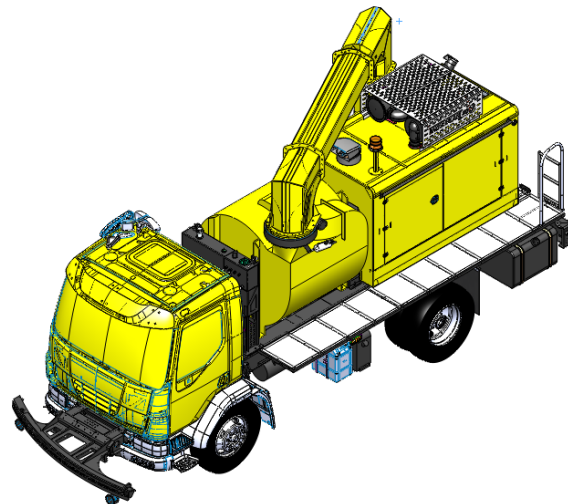

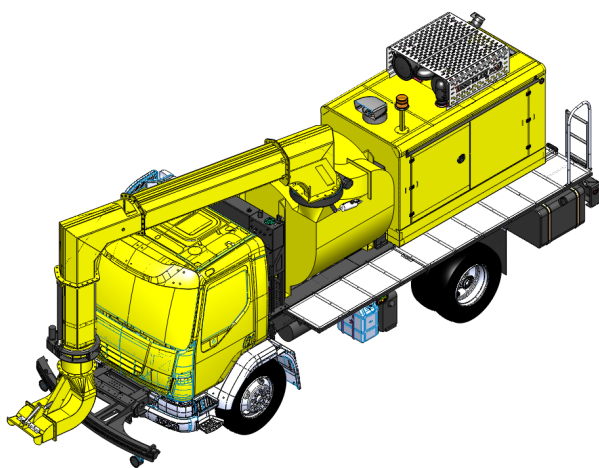

Wausau Turbo Blast 500 Cold Air Blower — Airport Equipment

Features:

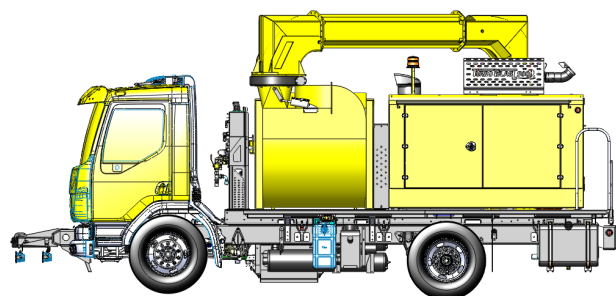

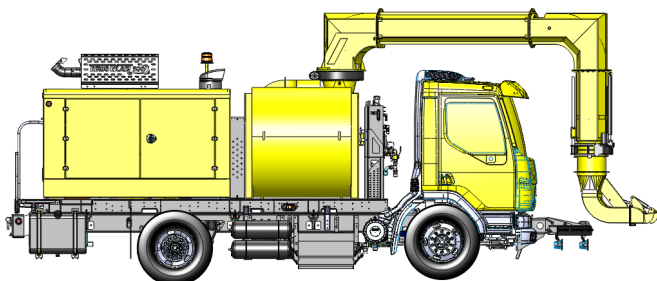

- Dependable Peterbilt 220 Chassis
- Allison 3000 Series Transmission
- Cummins Model QSG12 513 HP Tier 4 Auxiliary Engine
- **New** - Automated “Power Pan” Function
- **New** - “Lock On” function controls - Helps to eliminate driver fatigue during operation
- **New** - 200 degree adjustable nozzle pan
- **New** - 31 degree boom pan (with manual override to allow 180 degree pan)
- Enhanced access and serviceability of the fan drive belt
- Efficient impeller design increases performance at lower rotational speeds – Increasing impeller life and improved fuel economy.
- Environmentally protected Hyd. valves/components
- Engine block heater for chassis and auxiliary engine with remote sockets
- Air interrupt function button to redirect airflow and reduce Aux. engine RPM to idle vs engine shutdown/E-STOP
- Manual override for control valve operation

- **New** – 7” Touch Screen display for ease of operation and control - Custom selectable joystick function with proportional control

New Rotating Turret - Nozzle and Boom Assembly rotate to stowed position - designed to eliminate operator's obstructed view while equipment is in transport mode
