Reversing Trip Edge Plow

Never settle for an imitation - choose to get HomeSafe!

HomeSafe

Reversing Trip Edge Plow

THE PROOF IS IN THE DESIGN - FROM THE TRIP EDGE TO THE MOLDBOARD AND THE FRAME, WAUSAU'S HOMESAFE PLOW MEETS THE THE MOST DEMANDING NEEDS AND SAFETY REQUIREMENTS.

WAUSAU HOMESAFE PLOW FEATURES:

- Reversible torsion trip-edge plow
- Trip-edge is engineered to react quickly and smoothly
- Moldboard designed to maximize snow and air flow
- Doubled-ribbed moldboard support for durability
- Super heavy duty truss/pushframe
- Reversing cylinder options for optimal performance
- Shock-absorbing relief valve - standard
- Heavy-duty A-Frame and reversing frame pivot

IDEAL FOR MUNICIPAL AND HIGHWAY USE

OFTEN IMITATED - NEVER EQUALED - HomeSafe

HOMESAFE POLY SERIES

This is the most imitated plow on the market for a reason. When it comes to a plow that can handle tough and varying terrains, this plow will get you home... safe.

MODEL	LENGTH (ft)	CUTTING WIDTH (ft,in) AT 37°	HEIGHT	MOLDBOARD THICKNESS (in)	WEIGHT (lbs)*
HSP3610	10'	8'	36"	3/8"	2100
HSP3611	11'	8' 9"	36"	3/8"	2180
HSP4210	10'	8'	42"	3/8"	2260
HSP4211	11'	8' 9"	42"	3/8"	2340
HSP4212	12'	9' 6"	42"	3/8"	2420
HSP4214	14'	11' 4"	42"	3/8"	2540
HSP4811	11"	8' 9"	48"	3/8"	2500
HSP4812	12'	9' 6"	48"	3/8"	2580

Choose between hydraulic or manual reversing. Available options also include: single or dual mailbox cuts, rubber or poly snow deflectors, air foils, snow wheels

HOMESAFE POLY HOTWING SERIES

Choose the HotWing HomeSafe Plow for superior discharge and ability to cast and throw snow.

MODEL	LENGTH (ft)	CUTTING WIDTH (ft,in) AT 37°	HEIGHT AT CENTER	HEIGHT AT DISCHARGE	MOLDBOARD THICKNESS (in)	WEIGHT (lbs)*
HSP4211HW	11'	8' 9"	42"	54 1/2"	3/8"	2440
HSP4212HW	12'	9' 6"	42"	57"	3/8"	2520
HSP4811HW	11'	8' 9"	48"	60"	3/8"	2600
HSP4812HW	12'	9' 6"	48"	62"	3/8"	2680
HSP5611HW	11'	8' 9"	56"	70"	3/8"	2820
HSP5612HW	12'	9' 6"	56"	72"	3/8"	2900

Choose between hydraulic or manual reversing. Available options also include: rubber or poly snow deflectors, air foils, snow wheels

HOMESAFE STEEL SERIES

Wausau offers a steel moldboard version of the HomeSafe design.

MODEL	LENGTH (ft)	CUTTING WIDTH (ft,in) AT 37°	HEIGHT	MOLDBOARD THICKNESS (in)	WEIGHT (lbs)*
HSS3610	10'	8'	36"	3/16"	2205
HSS3611	11'	8' 9"	36"	3/16"	2285
HSS4210	10'	8'	42"	3/16"	2365
HSS4211	11'	8' 9"	42"	3/16"	2445
HSS4212	12'	9' 6"	42"	3/16"	2525
HSS4214	14'	11' 4"	42"	3/16"	2640

Choose between hydraulic or manual reversing. Available options also include: single or dual mailbox cuts, rubber or poly snow deflectors, air foils, snow wheels

*Note: all weights listed are a minimum based on a standard unit

OFTEN IMITATED - NEVER EQUALED - HomeSafe

HOMESAFE ONE-WAY

When it comes time to throw and cast snow out of the way, Wausau's HomeSafe One-Way Plow is the answer. Our heavy-duty smooth rolled moldboard with solid welded ribs will stand up to years of hard use. The overhang design is great for driver visibility and eliminating annoying overspray. Wausau's trip mechanism consists of 3/4" square wire horizontal torsion springs.

MODEL	LENGTH CUTTING EDGE (ft)	LENGTH OVERALL (ft)	CUTTING WIDTH (ft,in)	NOSE HEIGHT (in)	DIS-CHARGE HEIGHT (in)	MOLDBOARD THICKNESS (ga)	TRIP SPRINGS	WEIGHT (lbs)*
HSS2656	11'	12' 8"	9' 0"	26"	56"	10ga	5 Torsion	2360
HSS2658	12'	12' 8"	9' 8"	26"	58"	10ga	6 Torsion	2460

Available options also include: rubber or poly snow deflectors, air foils, snow wheels, sight markers, carbide cutting edges, curb guards etc.

**Note: all weights listed are a minimum based on a standard unit*

OFTEN IMITATED - NEVER EQUALED

CHOOSE THE SQH HITCH

- Level lifting at all times
- No protruding arm mounts
- Better weight distribution
- Easy for 1 person to install and remove the plow

FULL LINE OF SNOW & ICE EQUIPMENT FOR MUNICIPALITIES AND AIRPORTS

- SNOW PLOWS
- SNOW WINGS
- HITCHES
- SCRAPERS
- SPREADERS
- SNOW BLOWERS
- SNOW BROOMS
